

Fernando Hiram Santillán Rodríguez

ferhsantillan@outlook.com • +52 (834) 247-4201 • Monterrey, MX • qetrfd.github.io/DevPortfolio/

EDUCATION

Tecmilenio University, Monterrey, Nuevo León
Bachelor of Mechatronics Engineering

Graduation: May 2028

GPA: 3.9

PROFESSIONAL EXPERIENCE

Kuali — Co-Founder & Chief Technology Officer (CTO)

2025–Present

- Co-founded and lead the technology strategy of an AI-powered educational platform focused on inclusive and accessible learning.
- Architected QalyEdu, an adaptive learning system that uses diagnostic assessment, persistent learner profiles, progress data, and student goals to generate personalized learning paths, activities, and difficulty levels.
- Lead development across web, Android, and iOS products, including conversational AI, OCR, cloud infrastructure, accessibility features, Firebase, and Google Cloud.

PROJECT EXPERIENCE

NANU — qetrfd.github.io/NANU/

Sep 2025–Present

- Built an inclusive iOS application with SwiftUI for children with cognitive and learning disabilities, integrating pictograms, voice, routines, communication tools, and adaptive learning experiences.
- Led interface and feature development using accessibility-first design and prepared the product for deployment.

Pip-Boy Interface — github.com/qetrfd/PipBoyCPP2026

Feb 2026

- Developed a modular C++ desktop interface inspired by Fallout, combining system information, utilities, navigation, and interactive visual components.

HONORS & ACHIEVEMENTS

National Champion — Enactus Mexico National Competition 2026

Aug 2026

- Won first place nationally with Kuali and selected to represent Mexico at the Enactus World Cup 2026 in São Paulo, Brazil.

Admitted — Apple Developer Academy, Università degli Studi di Napoli Federico II

2026-2027

- Selected through an international admission process for an English-taught program in coding, graphical user interface design, and business.

Third Place — Swift Changemakers Hackathon 2026, Waste Challenge

May 2026

- Earned third place with TrustTheCode for KIVO, a human-centered AI solution for waste identification, recycling guidance, accessibility, and environmental engagement.

Featured — Nuevo León en la Hora Nacional

Aug 2026

- Presented Kuali and its work in educational technology, artificial intelligence, and accessibility during an official Government of Nuevo León broadcast.

SKILLS

- **Technical Skills:** Python, C++, C#, Rust, Swift/SwiftUI, Kotlin, Java, JavaScript, TypeScript, Embedded C, Angular, React, Next.js, Node.js, Tailwind CSS, OpenCV, Git, Robotics Systems Integration, Embedded Platforms, VEX Robotics, HMI Development, Hardware Integration, Basic Industrial Design, Microsoft Office, Adobe Photoshop, Adobe Illustrator.
- **AI, Cloud & Databases:** LLM integration, computer vision, OCR, Firebase, Supabase, Google Cloud Platform, SQL, REST APIs
- **Engineering:** Robotics, embedded systems, industrial automation, hardware integration, HMI development, Solid Edge, SOLIDWORKS, AutoCAD.
- **Certifications and Training:** Python Programming Diploma, C++ Programming (Basic and Advanced), Solid Edge CAD Certification-Siemens, Microsoft Office, Google Cloud AI Fundamentals, Apple Teacher, Basic & Intermediate Robotics (LEGO Mindstorms, VEX IQ).
- **Languages:** Spanish (Native), English (Professional Working Proficiency), French (Basic), Italian (Basic)
